## President's Report

This is my very first report and I'm really not sure where I should or shouldn't start.

First and foremost I would like to start to thank the new committee that have put up their hands to help the club and our wonderful breed in a very uneasy time, I am very dishearten with the past executive committee for just packing it all in and leaving the club in a position of almost getting closed without any really thought of what domino affects this has, with being so close to our year AGM, two shows in July and a National next year. If Queensland doesn't have a club the breed has no say, no show and nobody.

The club needs its members more than ever, we have members all around Queensland and other states and for those member's who are close, please come to at least one meeting a year and also attend the AGM each year and have your say.

For many years member's views have been missed and members have been forgotten about, but no more. In this current magazine is a motion form for all members to use and send into the club and we will put forward your say.

I am dedicated to running our club to a high standard, at meetings everyone is welcome but please remember this, Cooperation at these meetings is a must, Everyone has a different point of view which is essential to a well run club, debates can be robust but please leave your baggage at the front door. Personal attacks or abuse of any form with not be tolerated and you will be ask to stop at the first instant, but keep it up and you will be told to leave the meeting.

These meeting need and will finish at a reasonable hour so everyone can get home at a good time, no late night meetings finishing at mid night and this will be bought up at the next meeting regarding to start times and finish times, meetings need to start at 7:30pm and would be require to finish no later than 10:00pm if business from this meeting hasn't been complete it will get left for the next meeting.

Our club needs better representation within Dogs Queensland and we need to work closer with this organisation for the sake of the Rottweiler breed. Again I need members to help and get involved with contributing ideas which we can put forward to Dogs Queensland.

I am very much looking forward to our July shows, please if you can help your club let us know, even if it is just donating an item for the raffles, selling raffle tickets, setting up the show ring or working on the BBQ, if everyone chips in a little bit, as every bit helps.

And finally please remember the club is here for you all, I would like to encourage all RCQ members to influence the direction of their club by attending general meetings when they can and by actively contributing their opinions on topics affecting our breed.

Kind regards,

**David McKeown**  
RCQ President (Interim)
